ASTRO **Mobile App** - UX design

Version 2.10

ASTRO Mobile App - Account flow

① Account

This screen is showing an example of a FREE Account.

Our goal was to surface Manage, Backup, Share, Receive and Restore as our primary functionality.

The only FREE functionality Manage. If the user attempts to navigate to any other they will go to that screen with messaging encouraging them to UPGRADE.
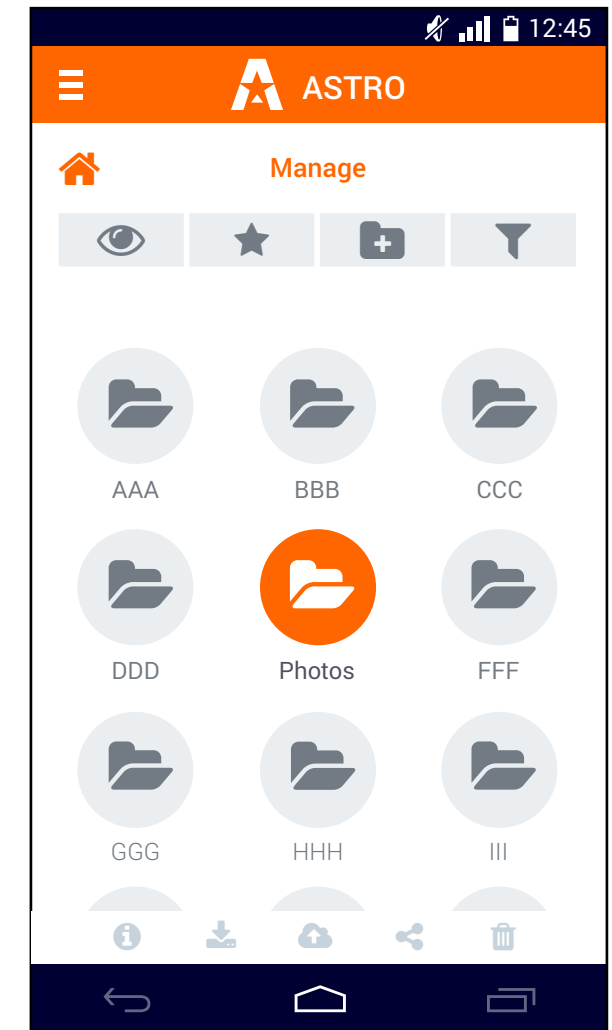

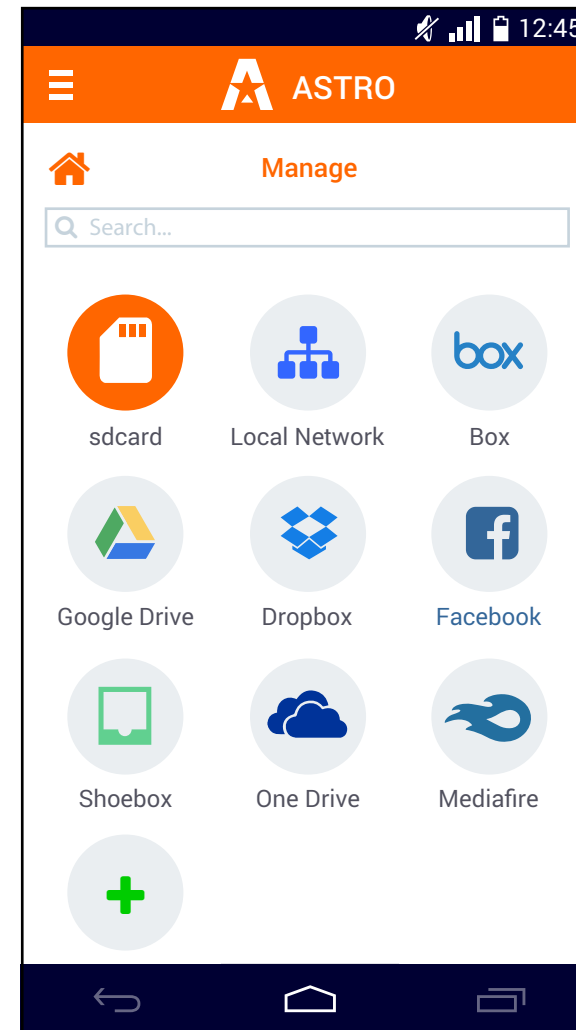

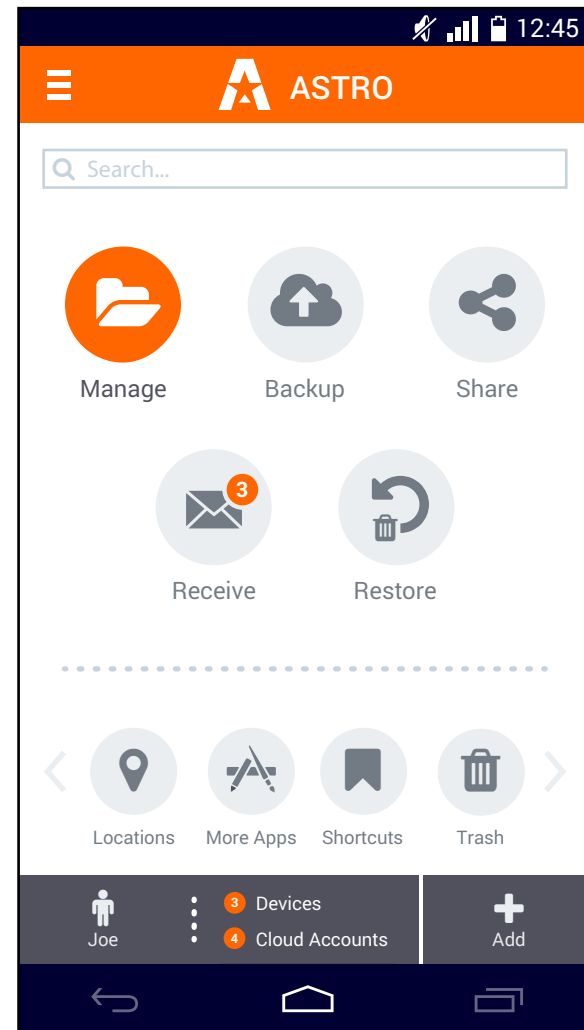

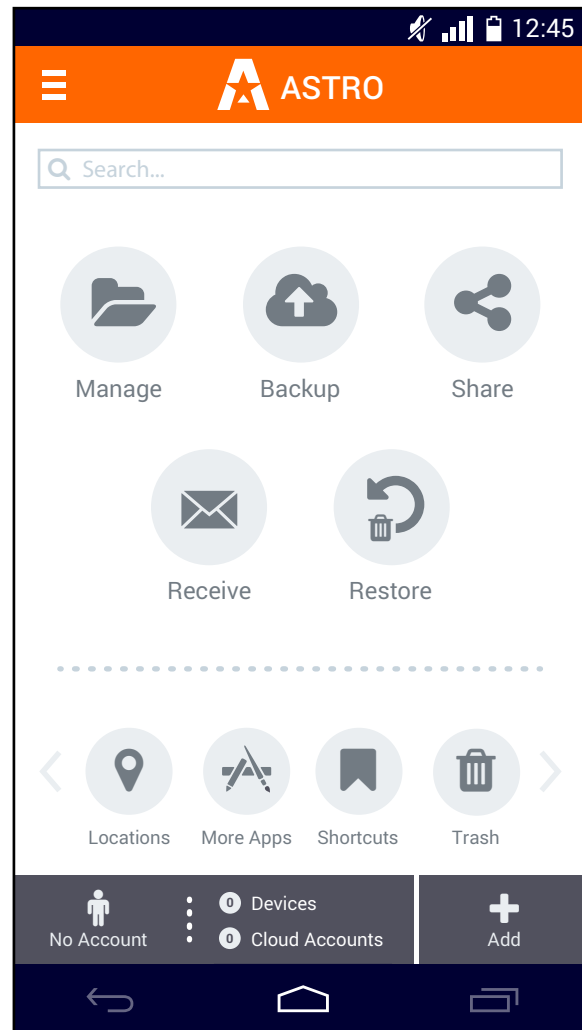

② Manage

This screen is showing an example of a Upgraded Account.

The Upgraded account can use the Primary, Secondary and Account related functionality show here.
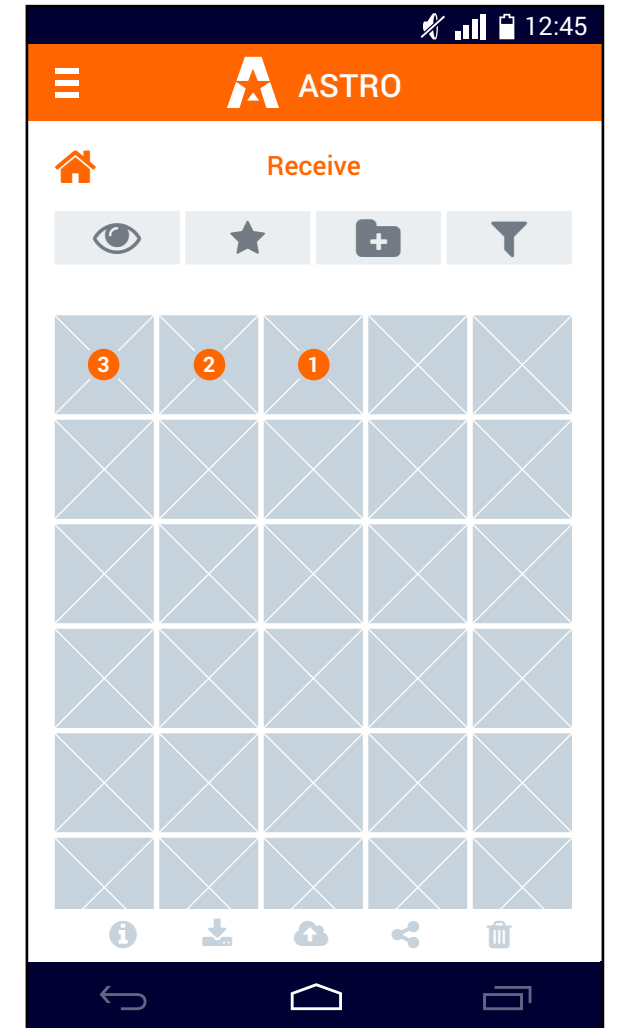

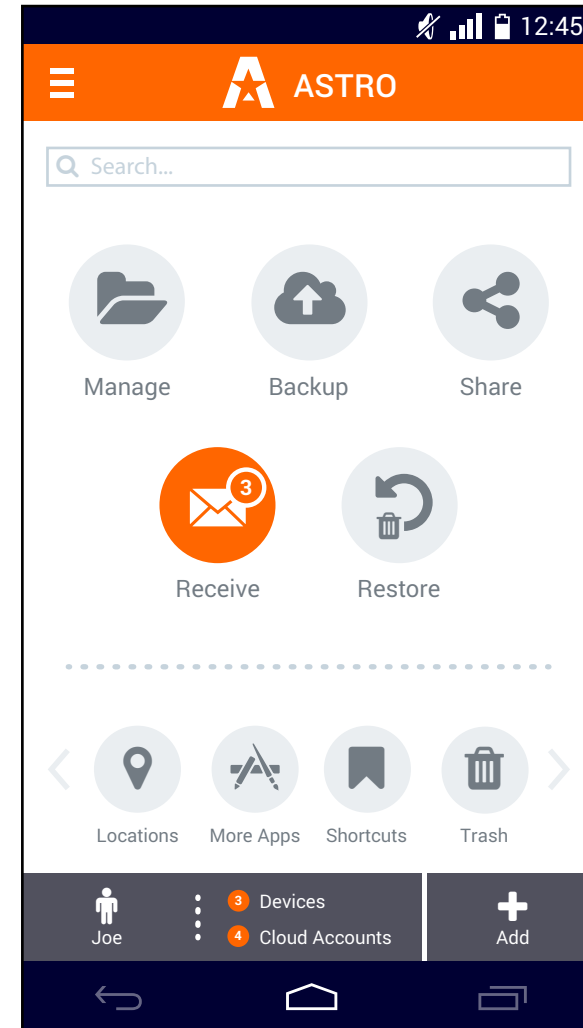

③ Sd Card
